

My Sound Hunt

Sounds hide inside words, and today you get to find them!

Pick three words you know well. Say each word slowly. What letters make the first sound? What letters make the last sound? Draw a picture for each word, and write the letters under it ([Outcome](#)).

Where to start:

- Say your word slowly, stretching out each sound.
- What is the very first sound you hear?
- What letter or letters make that sound?
- Is the last sound made by one letter or two letters ([Understanding](#))?
- Does your word have a short vowel sound or a long vowel sound ([Skills](#))?

Stretch:

Pick one word and change just the first letter. What new word do you make? Write it down and read it out loud.
