

The Nervous System Word Search

This game reinforces your knowledge of nervous system structures and processes. You will locate terms related to the organization of neurons into the central and peripheral nervous systems ([Outcome](#)), the structure and function of neurons and synaptic transmission ([Outcome](#)), and the role of the nervous system in maintaining homeostasis ([Topic](#)).

How to play

- Find each word in the grid. Words run horizontally, vertically, or diagonally in any direction.
- Circle or highlight each word as you find it. A letter may be used in more than one word.
- Check off words on the word list as you locate them.

Words to find

- CEREBELLUM
- COCHLEA
- HOMEOSTASIS
- HYPOTHALAMUS
- MEDULLA
- MYELIN
- SOMATIC
- SYNAPSE

F	H	X	F	F	I	Y	C	I	M	A	O	E	M

Answer key

- **CEREBELLUM**: row 11, column 2, across
- **COCHLEA**: row 3, column 5, down
- **HOMEOSTASIS**: row 3, column 4, diagonal
- **HYPOTHALAMUS**: row 2, column 11, down
- **MEDULLA**: row 7, column 4, diagonal
- **MYELIN**: row 4, column 2, diagonal
- **SOMATIC**: row 10, column 8, across
- **SYNAPSE**: row 3, column 9, down
