

Addition and Subtraction Word Search

We are learning about addition and subtraction within 100 ([Outcome](#)). A sum can be made in many ways, and doubles and multiples of ten make numbers easier to add ([Understanding](#), [Knowledge](#)). Subtraction is the inverse of addition, so we can check our work by flipping the operation around ([Skills](#)). Find the words below that name the strategies we use every day in math class.

How to play

- Look across, down, and diagonally for each hidden word.
- Circle or highlight each word as you find it.
- Cross words off the list once you find them, so you know how many are left.

Words to find

- ADDITION
- COMPOSE
- DOUBLES
- INVERSE
- MULTIPLE
- QUANTITY
- STRATEGY
- SUBTRACTION

G	E	Q	N	P	I	U	H	J	L	O	I	Z
U	Y	M	B	C	O	M	P	O	S	E	H	F
V	O	H	N	I	N	V	E	R	S	E	S	S

Answer key

- **ADDITION:** row 6, column 6, down
- **COMPOSE:** row 12, column 5, across
- **DOUBLES:** row 7, column 6, diagonal
- **INVERSE:** row 13, column 5, across
- **MULTIPLE:** row 1, column 8, down
- **QUANTITY:** row 1, column 11, down
- **STRATEGY:** row 3, column 3, diagonal
- **SUBTRACTION:** row 4, column 1, across
